

Candler County

Vidalia onions are harvested with hand labor using clipping shears to reduce bruising. Research from a two-year study comparing onions clipped at different neck lengths shows that leaving longer necks reduces this occurrence of internal bacterial center rot. This new practice is being implemented on Vidalia onion farms in the region. During the 2024 program year, 598 youth participated in 4-H programming through in-school and out of school activities. This includes summer camp, Project Achievement, judging teams, Project S.A.F.E. shooting sports, leadership programs and more. Thirty-three local food business owners and 16 food handlers completed ServSafe certification courses. The Volunteer Income Tax Assistance Program served 12 clients in 2023 and secured \$5,303 in refunds.

A healthy Georgia is a better Georgia.

University of Georgia Cooperative Extension offers programming focused on mental health, financial well-being, nutrition and everything in between. UGA Extension had 1,808,305 face-to-face contacts in 2023. Of these, 170,771 contacts addressed health and wellness topics, including rural and farm stress.

Extension is committed to helping rural Georgia farmers and families thrive. UGA Extension provides physical and mental health resources to keep rural Georgia growing stronger, especially when times are tough. Our new Behavioral Health Team provides fact sheets, trainings and a weekly blog—all to help Georgia individuals and families thrive.

Growing cities.

UGA Extension helps urban gardeners develop school gardens, community gardens and urban farms to benefit their communities. Extension works with educators to create sustainable outdoor classrooms that function as successful teaching tools. Community gardeners are supported in growing healthy food crops in small spaces while urban farmers are encouraged to apply the latest agricultural research to grow their businesses.

Committed to Georgia's youth.

Georgia's 4-H enrolled 173,505 youths across the state during the 2022-23 school year.

Get the facts.

UGA Extension publications are the go-to source for unbiased, research-based information in the state of Georgia.
