

Jenkins County

As always, Jenkins County strives for greatness. With an upcoming new agent, Jenkins County 4-H is ready to rebuild the program. With a wonderful group of kids participating in events like Cloverleaf District Project Achievement, Junior/Senior Project Achievement, Project S.A.F.E., and students ready to attend summer camp, the Jenkins County 4-H program is evolving and will continue to grow.

From row crops to cattle and hay, pines to locally grown vegetables and peaches to pecans, Jenkins County is a diverse agricultural production county. Jenkins County producers grow around 40,000 acres of row crops annually including cotton, corn, peanuts and soybeans.
