

# Lanier County

Hurricane Idalia made landfall in August 2023. The UGA Extension Emergency Preparedness Team has drones for crop damage assessments as part of a USDA/NIFA grant. Before the hurricane arrived, Lanier County ANR agent reminded team members that drones were available for damage assessments. After the storm hit, ANR agents identified areas with the worst damage. Forty-one drone flights were conducted with ANR agents at 18 sites. Photos helped estimate yield loss to secure aid for disaster programs. The photos were documentation of damage for insurance claims, etc. Timely actions after Hurricane Idalia ensured that 18 operations had resources and documentation necessary to move forward after a natural disaster.

## A healthy Georgia is a better Georgia.

University of Georgia Cooperative Extension offers programming focused on mental health, financial well-being, nutrition and everything in between. UGA Extension had 1,808,305 face-to-face contacts in 2023. Of these, 170,771 contacts addressed health and wellness topics, including rural and farm stress.

Extension is committed to helping rural Georgia farmers and families thrive. UGA Extension provides physical and mental health resources to keep rural Georgia growing stronger, especially when times are tough. Our new Behavioral Health Team provides fact sheets, trainings and a weekly blog—all to help Georgia individuals and families thrive.

## Growing cities.

UGA Extension helps urban gardeners develop school gardens, community gardens and urban farms to benefit their communities. Extension works with educators to create sustainable outdoor classrooms that function as successful teaching tools. Community gardeners are supported in growing healthy food crops in small spaces while urban farmers are encouraged to apply the latest agricultural research to grow their businesses.

## Committed to Georgia's youth.

Georgia's 4-H enrolled 173,505 youths across the state during the 2022-23 school year.

## Get the facts.

UGA Extension publications are the go-to source for unbiased, research-based information in the state of Georgia.
