

Paulding County

Paulding Extension conducted Pollinator Stewards training to equip teachers for school gardening. Educators learned about gardening through the lens of pollinators and practiced hands-on activities they could use in class. As a result, 1238 Paulding County students participated in the Great Southeast Pollinator Census in 2023, engaging Paulding students in hands-on citizen science.

Paulding 4-H created the 4-H Outdoor Challenge to encourage 4-H'ers to explore nature. 4-H'ers pledged to spend time outdoors the weekend of November 19-20. They were encouraged to try activities like hiking and camping. Twenty-two family groups (59 people) from across the state of Georgia pledged and reported 293 outdoor hours.

A healthy Georgia is a better Georgia.

University of Georgia Cooperative Extension offers programming focused on mental health, financial well-being, nutrition and everything in between. UGA Extension had 1,808,305 face-to-face contacts in 2023. Of these, 170,771 contacts addressed health and wellness topics, including rural and farm stress.

Extension is committed to helping rural Georgia farmers and families thrive. UGA Extension provides physical and mental health resources to keep rural Georgia growing stronger, especially when times are tough. Our new Behavioral Health Team provides fact sheets, trainings and a weekly blog—all to help Georgia individuals and families thrive.

Growing cities.

UGA Extension helps urban gardeners develop school gardens, community gardens and urban farms to benefit their communities. Extension works with educators to create sustainable outdoor classrooms that function as successful teaching tools. Community gardeners are supported in growing healthy food crops in small spaces while urban farmers are encouraged to apply the latest agricultural research to grow their businesses.

Committed to Georgia's youth.

Georgia's 4-H enrolled 173,505 youths across the state during the 2022-23 school year.

Get the facts.

UGA Extension publications are the go-to source for unbiased, research-based information in the state of Georgia.
